BRIVITY JUNIOR DESIGNER

Hi there, passionate digital designer. Nice to meet you!

As a student of visual communication, you know the power behind dynamic design. You know your stuff, from the latest design and prototyping tools to typography. You work hard, deliver projects on time, continually improve, and create pixel perfect designs that solve real problems.

People have good things to say about you. You're accountable and a leader, but you can also work well on a team. You eat, drink, and breathe design, from listening to creative podcasts and reading blogs to doodling logo variations on your notes. You're an idea person.
Which is why you want to come work with us. Because we're like that, too.

<u>THE TEAM YOU'LL JOIN</u>

Ben Kinney Companies is an international business comprised of:

- "One of the Top 25 Real Estate Sales Teams in the USA" (The Wall Street Journal)
- 6 Franchisees across 10 offices
- 17 expansion teams across the US, Canada and the UK
- An international training business that has taught hundreds of thousands of people
- The Brivity Platform - a growing collection of 9 technology brands including best-in-class lead generation tools, a leading industry CRM, ActiveRain (the #1 online community for Real Estate professionals), custom web design and IDX solutions for agents, teams and brokerages, mobile lead capture, and artificial intelligence technologies

H - Humility

<u>JOB DESCRIPTION</u>

- We're currently hiring Junior Designers for the Brivity Platform, our tech division based in Bellingham Washington
- As a Junior Designer, you will work with an amazing team of experienced designers in a coaching, development and growth culture
- You will design website and technology solutions that will be seen and used by thousands of real estate professionals worldwide
- You will work hard but be rewarded with opportunities to directly affect your career and earning potential through your own efforts

PRIMARY RESPONSIBILITIES

- Design, build and edit consumer-facing real estate websites with our custom, in-house site builder software
- Work with the design and marketing teams to create materials to support and promote our products and brands
- Learn to meet daily, weekly, and long-term deadlines in a fast-paced environment
- Help to design and create prototypes for UI/UX software solutions with our product team
- Pair with other designers and developers to achieve company goals
- Other tasks as necessary

SKILLS & REQUIREMENTS

- Proficient with design software: the Adobe Creative Cloud, Sketch, InVision, etc.
- Web design knowledge, including basic CSS and HTML
- JavaScript knowledge a plus
- Excellent written and verbal communication skills
- Strong working knowledge of Google Apps
- Highly organized with extreme attention to detail
- Ability to work independently and handle shifting priorities
- Highly motivated by a growth and coaching culture
- Must be willing to work in our Bellingham, Washington office

COMPENSATION & BENEFITS

- Competitive pay (salary based on experience)
- 401(k) plan
- Vision, Dental and Medical benefits
- Flexible paid time off
- Paid training
- Growth opportunities
- Open, collaborative workspaces
