Senior Ruby on Rails Developer

We're looking for someone with a passion for programming and for writing beautiful code. You will join a team of developers building custom tools and web applications for the real estate industry. We are committed to simple, functional, and powerful user interfaces, APIs, and information storage systems.

Our company is located in Bellingham, WA. Home to Western Washington University, Bellingham is a beautiful waterfront city nestled between Puget Sound and the Cascade mountains. Life here means access to the mountains and the sea providing an abundance of outdoor activities including skiing, mountain biking, hiking, sailing, kayaking, fishing, and wildlife viewing. A progressive city with lots to do, Bellingham is an ideal location to live and work.

Requirements:

-4+ years of direct experience in Ruby on Rails, along with other common libraries
-Good understanding of front-end technologies, such as JavaScript, HTML5, and CSS3
-A knack for writing clean, readable Ruby code
-Adept at implementing automated testing platforms and unit tests
-Proficiency with Git or a comparable VCS

Great to have:

-Experience with JavaScript frameworks
-Background in continuous integration

We offer:

-Open, collaborative workspaces
-Snacks and coffee
-Vacation (PTO) as needed, with a minimum of two weeks per year
-Medical and dental benefits
-401(k) plan

Additional Information

-We are open to remote work (telecommuting)
-This is a full-time, non-contract position
-Salary DOE
